

Superfund Emergency Management Branch Briefing Schedule for Carl

Below is a proposed briefing schedule. I know that some have already been placed on Carl's calendar which is great. I want to ensure that we have a pre-brief before we go brief Carl. While I don't necessarily want to go overboard, I would like are briefings to organized and concise. We should work our folks to get prepared for these discussions and briefings. Of course we can always revise the schedule as needed.
